

# Solids, Liquids, and Gases

**By Judy Beaty**

**Adapted by Kathleen Edwards and Betsy Watwood**

(Sung to the tune of Brother John)

<p>Solids, Liquids, Gases Solids, Liquids, Gases Make up matter. Make up matter. Everything is made of atoms. Everything is made of atoms. This we've learned. This we've learned.</p> <p>Solids have weight. Solids have weight. They have their own shape. They have their own shape. They can be measured. They can be measured. This we've learned. This we've learned.</p>	<p>Liquids have weight. Liquids have weight. They take the shape They take the shape Of their containers Of their containers This we've learned. This we've learned.</p> <p>Gases have weight. Gases have weight. They occupy space. They occupy space. We cannot see them. We cannot see them. This we've learned. This we've learned.</p>
