

Title: A cell model

Objective: What's the function of a cell membrane?

Hypothesis: I think the function of a cell membrane is to protect the cell from bad things and to let good things pass through/into the cell.

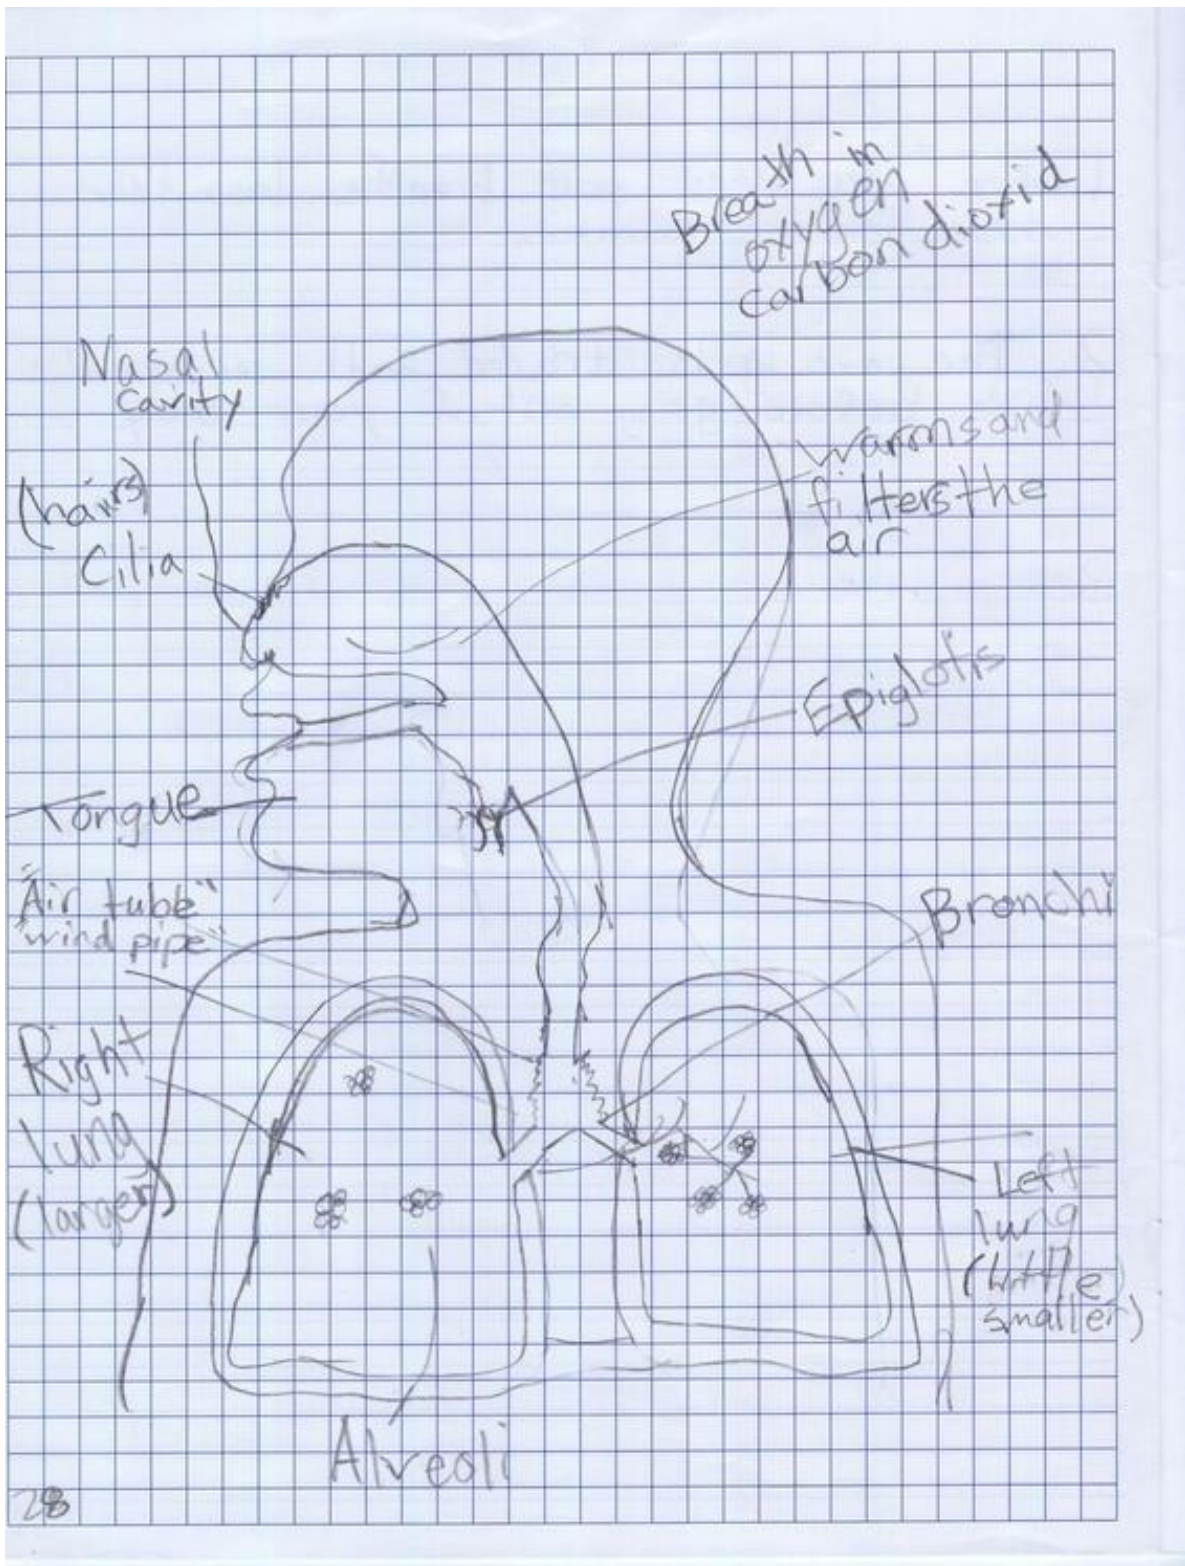

Cup	Initial	final	After 2 days
Cup 1	Out: yellow-gold	out: same	out clear no lund's
	in: white, milky	in: purple - black	in: black
Cup 2	Out: white, milky	out: still white, but maybe purple in time	out: purple
	in: yellowish-gold	in: same	in: light, pale, yellow

When starch is present, solution turns black.
